DESIGN PROCESS: NEW BUILD

Why nested?

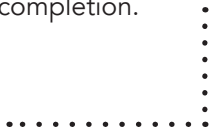

A BOUTIQUE BUILD

We positioned our company to connect with our clients in a fashion that makes the building process easier, providing a white glove, boutique service within the building industry. We approach each project with expertise and dedication to complete on schedule and with uncompromising quality. Nested helps simplify the process by utilizing a smartphone app to allow for communication, selections, drawings, schedules and bill pay one touch away.

CLIENT ALIGNMENT

Our process focuses on communication and developing a relationship with our clients throughout their process from design to finishing touches. One of our greatest strengths is our focus on the planning phase of your project to eliminate unknowns, avoid surprises throughout the project and make sure everyone is aligned from concept to completion.

THE BUILD PROCESS

The build process is focused on communication and alignment throughout your job. A remodel or new construction project can be stressful and overwhelming at times but our extensive team is here to make things run as smoothly as possible. Your project manager as well as our online system will keep you informed throughout the entire process - on Buildertrend you will be able to see your calendar by week noting each objective, photos of the job throughout the process, drawings, contract scope, technical specs etc. Our team will walk you through the construction process from demo to final touches and punchlist.

LET'S GET THE BALL ROLLING!

Whether you have a design already or just a concept in mind we would love to talk with you about your project to see if Nestled is the right fit to turn your idea into your dream space! We will work with you to refine your design, develop a bid, and make sure your project runs smoothly every step of the construction process.
